Early Bird Specials: \$149 ADA Members · \$125 ADA Member Spouse · \$65 Children (Up-to 18yrs) · \$199 Non-ADA Member

Conference Overview

Dentists rely not only on business specialists but also on their own abilities to effectively navigate their practices through the ever-changing economic landscape. We must be careful in our preparation, design, and be meticulous in our business practices. Unexpected results in one's dental practice are frequently blamed on the dental benefit companies and dental service organizations when, in reality, dental practice fundamentals are often the culprit. The conference will highlight the latest information and evidence on a wide variety of topics in practice production strategy and proactive business practices as well as relevant management information to assist dentists in their everyday practice.

Topics

- | "How to Improve Your Practice Cash Flow & Profitability" • "Mastering the Art of Dental Benefit Reimbursement" |
- | "Advantages & Disadvantages of Owning Multiple Practices" • "Understanding Your Key Performance Indicators" |
- | "How to Outsmart an Embezzler" • "Tax Strategies" |

Meet Your Coaches

Kerry Straine
